AN EXCITING CAREER
IN NATURAL HEALTH
FOR SCHOOL LEAVERS

2017 School Leaver Prospectus
Be the future of wellness
Step out
The journey after school may seem daunting. It may seem exciting. It may seem both at the same time. Whatever it is, it begins with you stepping out of your comfort zone and into something new. Woo hoo!

Step up
Make your journey your own. Leaving school and taking the next step to independence is one of life’s big milestones. The pressure might be on, but you can do it. Take control. Live your life your way.

Step right
Or left. It doesn’t matter. What matters is that you make a choice and move. Research what you want to do. Talk to people. Attend open days. There’s never one road to success. The important thing is not to stand still. Just take one step at a time.

Step together
The best journeys are those that are shared. This doesn’t mean you have to follow your school friends to tertiary study – it means finding your people and sharing the journey with them.

Make Endeavour College of Natural Health your first step towards the future of wellness.
ENDEAVOUR OFFERS A CLASSROOM ENVIRONMENT THAT PROMOTES DISCUSSION FOR A DEEPER APPRECIATION OF WHAT CLINICAL PRACTICE WILL INVOLVE.

Aleisha De Fague Bachelor of Health Science (Naturopathy) 2016 School Leaver Scholarship Ambassador
Mindful learning is being in the here and now – as you study. It’s a unique practice we encourage at Endeavour to keep the minds of our students, teachers and support teams focused on the future of wellness.

Why not give it try?

STOP for just one minute and sit
TAKE a few slow deep breaths
FEEL any tension in your body and mindfully, intentionally release it
SMILE as you do this by remembering something that makes you happy

Got time for more mindfulness?
Go to the centre spread of this prospectus.

Important dates

- Enrol direct anytime for 2017 at endeavour.edu.au
- Online course intakes commence monthly
- Open Day (all campuses)
  - Saturday 21 January 2017, 10:00am – 1:30pm
  - Thursday 6 April 2017, 6:00pm – 8:00pm*
  - Saturday 17 June 2017, 10:00am – 1:30pm*
  - Saturday 7 October 2017, 10:00am – 1:30pm*
- Semester 1, 2017 commences
  - Monday 27 February 2017
- Semester 2, 2017 commences
  - Monday 24 July 2017
- Scholarship applications open
  - Monday 24 July 2017
- Scholarship applications close
  - Monday 27 November 2017

*Dates and times subject to change, see endeavour.edu.au
Why start your journey with Endeavour?

1. PEOPLE POWER
You might know we are the largest natural health college in the Southern Hemisphere. Yes, we’ve been around since 1975. You may not know that you will learn from some of the natural health industry’s best teachers, rub shoulders with some of its superstars and no doubt discover a bunch of like-minded people amongst your peers.

2. WORK-READY
It’s OK if you’re not thinking about work right now, but keep this in mind: as an Endeavour student you will complete hundreds of practical, clinical hours at our Wellnation Clinics during your course. With this hands-on experience and Endeavour’s strong links to business and industry, you’ll be well and truly work-ready when you graduate.

3. DIRECT ENTRY
Yes, that’s right. As a private college, you do not need a specific ATAR or OP rank. Before you get too excited, you do need to show us you’re passionate about natural health and wellness study. You must have the equivalent of a year 12 High School Certificate (it does help if you have studied science or maths at high school) and put your best foot forward at an interview with us.

4. NOURISHMENT
Everyone needs a little nourishment on life’s journey. At Endeavour your class sizes are small and intimate, meaning you will get attention – if you want it. The student services and career guidance teams are there to support you every step of the way. And, if you need a little help to get started, check out our scholarships on page 8.

5. SUCCESS
We offer five bachelor degrees, including a non-clinical Bachelor of Complementary Medicine, each one with industry accreditation, all you need to do is choose where to start. As a quick scan of the graduate stories in this prospectus will show, you’ll soon be on your way to success.

Support every step of the way

From five degrees to everywhere

Which course is for you?

Remember you can enrol directly in any of our Bachelor degrees. Monthly intakes available and offered nationally.

*Clinical hours listed are approximate and may vary depending on course electives chosen.

How can you pay for your course?

Australian students studying a Bachelor degree program may be eligible for FEE-HELP.
Destinations

As the largest natural health college in the southern hemisphere by depth and breadth of course offerings, you’ll find Endeavour located in six major Australian cities and one lifestyle destination. And yes, you can move between campuses as you study!

Each campus is centrally located and well-serviced by public transport. Our facilities vary at each campus but they include bright, modern classrooms, clinical practice rooms, libraries, bookstores, cafes and inviting spaces to hang out and study.

Available courses:
- Bachelor of Health Science (Acupuncture)
- Bachelor of Health Science (Naturopathy)
- Bachelor of Health Science (Nutritional and Dietetic Medicine)
- Bachelor of Health Science (Myotherapy)
- Bachelor of Complementary Medicine

Perth

**Level 1, 170 Wellington Street, East Perth**

The East Perth Campus is located on the perimeter of the CBD just one kilometre from the city centre and is readily accessible by bus or train. It is close to Wellington Square park, restaurants and cafes.

Adelaide

**88 Currie Street, Adelaide**

The Adelaide campus is part of the iconic Powerplant building. The campus is close to public transport, a huge choice of cafes and restaurants, and Central Market. It is situated five minutes to Adelaide main shopping strip, the new Royal Adelaide Hospital and Adelaide Oval.
Brisbane
Level 2, 269 Wickham Street
Fortitude Valley, Brisbane

The Brisbane campus is located at 269 Wickham Street in Fortitude Valley, close to the Valley train station and multiple bus stops. Surrounding amenities including a post office, ATM facilities, the Valley swimming pool, as well as dozens of cafes and restaurants in Brisbane’s Chinatown, Newstead and New Farm.

Gold Coast
G/F Nexus Towers
105 Scarborough Street, Southport

The Gold Coast campus is located in the heart of Southport near the Broadwater. It is close to public transport as well as the Gold Coast’s beautiful beaches, famous shopping and restaurant districts.

Sydney (Haymarket)
Level 2, 815 - 825 George Street, Sydney

The Sydney (Haymarket) campus is located at 815 George Street, Haymarket in the CBD. Central Station is within a short walk, along with multiple bus stops, and a huge range of restaurants and cafes.

Sydney Olympic Park
10 Parkview Drive, Sydney Olympic Park

In 2017 Endeavour will be delivering two degrees at its sister college campus, the Australian College of Physical Education, located in the iconic Sydney Olympic Park. It is surrounded by world class sporting arenas, parklands, restaurants, and cafes.
DIY Wellness – Nutritional Medicine

Did you know breakfast is important because it breaks the overnight fast and provides the energy and nutrition your body will thrive on during the day?

Here’s a smoothie recipe from Endeavour graduate Lola Berry to get you in full study mode.

**Banaramami Smoothie**
- 2 frozen bananas
- 1 heaped tablespoon LSA
- 1 pinch cinnamon
- 1 pinch freshly ground cardamom
- 3 medjool dates
- 2 cups almond milk

The number of Australians using alternative health services has grown by 40% over the past 10 years.

*Source: Roy Morgan, 2010*

Over the past five years the natural health industry has experienced 3.9% annual growth. It is forecast to outperform the wider economy.

*Source: IBIS World, 2016*
Seven scholarships to help high achievers step forward

Do you excel at the sciences and communicate with ease?

Endeavour College of Natural Health offers undergraduate scholarships for school leavers and gap year students aged 17 to 19 years of age (at time of application).

- Academic Achievers School Leaver Scholarships x 5
- Indigenous Australians School Leaver Scholarships and Bursary x 2

The Academic Achievers School Leaver Scholarship offers five places nationally to study in any one of our leading Bachelor of Health Science degrees in Naturopathy, Nutritional and Dietetic Medicine, Acupuncture or Myotherapy available at any one of the seven campuses where those courses are available, or choose our online Bachelor of Complementary Medicine.

If you are successful, Endeavour will cover the cost of your tuition fees for the first year of your chosen course and you will have the chance to represent us during your first year as our Endeavour school leaver Ambassador.

The Indigenous Australians School Leaver Scholarship is for Aboriginal and/or Torres Strait Islander students and is designed to fully support students with demonstrated disadvantage that would otherwise prevent them from reaching their full academic potential.

This scholarship will provide 100% of tuition fees for the duration of study in either a Bachelor of Health Science degree in Naturopathy or Nutritional and Dietetic Medicine, along with a bursary of $500 for text books in first year.

For further information and terms and conditions visit endeavour.edu.au/scholarships
Practical experience to make you work ready

Once you get to the final semesters of study you’ll start practice at our professional natural medicine clinics – Wellnation Clinics. Before you graduate you’ll have gained hundreds of hours of practical hands-on experience – watch out, you will be confident and truly work-ready!

As part of your course you will learn and work, supervised by qualified practitioners, with fee-paying patients. In a safe, supportive and professional clinical setting you will learn practical skills and also understand the business aspects of running a clinic. This is why Endeavour is known for its highly competent and well-rounded practitioners.

Across Australia, Wellnation Clinics are open to the public and treat more than 1,000 clients each week. So you could book in and test out the profession yourself anytime.

More than 69% of Endeavour students go on to work in clinical practice and 28% work in a health-related field in retail, teaching or promotion.

A CLIENT WILL KEEP COMING BACK IF THEY ARE GETTING THE RESULTS THEY ARE LOOKING FOR AND CAN SEE PROGRESS.

Cathy Vanzanden Bachelor of Heath Science (Naturopathy), recent graduate

wellnationclinics.com.au
Accreditation and professional recognition

You (or your parents) might like to know that we develop our courses with professional associations, external academics, clinicians and alumni. And that we regularly review all our courses to make sure they meet our students’ and industry’s needs.

Each of our Bachelor degree courses are formally assessed and accredited by the Australian government national regulator for Higher Education, the Tertiary Education Quality Standards Agency (TEQSA). Our Bachelor of Health Science (Acupuncture) has been approved by the Chinese Medicine Board of Australia (CMBA), the regulatory board for practitioners. Endeavour is the preferred education provider of Massage and Myotherapy Australia, the professional association for Myotherapists.

Once you graduate you are eligible for membership of professional associations relevant to your field of study, such as the Australian Acupuncture and Chinese Medicine Association and the Australasian Federation of Natural Therapists.

We educate first-rate professionals, perfectly positioned to service the thriving health and wellness sector.

The proportion of complementary health professionals leaving their profession is 6.4% annually, which is substantially lower than the average across all occupations at 13.1%.

DIY Wellness – Acupuncture

Did you know specific pressure points could relieve headache pain?

If your head hurts from too much study Endeavour academic Dr Sarah George recommends trying pressure point LI 4. This point is located between your thumb and index finger. Apply pressure slowly and firmly while taking long slow breaths. Do not use if you are pregnant.
Nadia Berjaoui
2016 School Leaver Scholarship Recipient
Bachelor of Health Science (Naturopathy), Sydney

Being an Endeavour Student Ambassador, through the scholarship, has helped me to reach my full potential. I have attended several Open Days and a Career Expo. These events were immensely fun as I was able to communicate with present Year 12 students about their passion for natural health and like-minded interests.

Overall I’ve enjoyed the challenge of honing my public speaking skills and communicating with confidence to help others decide if a career in natural health is for them.

Demi Green
2016 School Leaver Scholarship Recipient
Bachelor of Health Science (Naturopathy), Sydney

Endeavour offers a classroom environment that promotes shared student and lecturer discussion for a deeper appreciation of what clinical practice will involve. The merger of science and holism encourages us to think critically and develop essential skills as budding naturopaths. I am also interested in postgrad research and if I can identify a gap in current research findings I may also look to start that at some point.

The scholarship has been more than a financial support, allowing me to fully immerse myself in campus life and the natural health experience. The opportunity and degree have given me the confidence and dedication vital for my pursuit of happiness and health.

I loved speaking with people at the career expos and Natural Health Open Days as part of the scholarship – I got a huge kick out of being able to guide others on their potential career pathways.

Morgan Phillips
2016 School Leaver Scholarship Recipient
Bachelor of Health Science (Naturopathy), Adelaide

The course with Endeavour College has been really good and has exceeded my expectations. The experience has helped me to determine that I want to use my naturopathy degree to focus on fertility, and mothers’ and newborns’ health.

The ambassadorship has given me great networking opportunities, and I’ve met so many inspiring people who are passionate about the field of natural health, including fourth year students who I might not have had the chance to cross paths with otherwise.

Overall I’ve enjoyed the challenge of honing my public speaking skills and communicating with confidence to help others decide if a career in natural health is for them.

Aleisha De Fague
2016 School Leaver Scholarship Recipient
Bachelor of Health Science (Naturopathy), Adelaide

Endeavour has equipped me with the skills and necessities that I will carry throughout my future studies and beyond. With this scholarship, I have become much more confident and have strengthened my dedication to the natural health sector.

Why I chose Endeavour...

DIY Wellness – Naturopathy
Did you know certain herbs could help you manage stress?

Chamomile, Linden, Passionflower and Lemon Balm help with the stress and anxiety of exam preparation. They can also assist you to sleep.

You’ll find a healthy dose in Emma Watson’s ‘sleep blend.’ Emma created her own organic ‘Love tea’ range while studying Naturopathy at Endeavour.
Mindfulness:
A mental state achieved by focusing one’s awareness on the present moment, while calmly acknowledging and accepting one’s feelings, thoughts, and bodily sensations.
Holistic nutritionists integrate traditional food wisdom and current evidence to motivate individuals and communities to eat well and live healthier lives.

Holistic nutritionists approach disease prevention and management through a multidimensional lens, including nutrient adequacy, food quality, dietary behaviours and lifestyle.
Acupuncture restores the harmonious flow of energy by influencing the acupuncture points with needles, lasers, or finger pressure.

Myotherapy is a branch of manual medicine that focuses on the treatment and management of musculoskeletal pain and dysfunction.
Naturopathy uses the holistic principles of Hippocrates to treat the underlying cause and the whole patient, not just the symptoms, to educate the patient and develop preventative measures to reduce recurrence.

The study of Naturopathy includes herbal medicine, diet and nutrition, flower essence therapy, nutritional supplementation, naturopathic diagnostic techniques including iris analysis along with a general understanding of various forms of therapy.
Bachelor of Health Science (Acupuncture)

4 years full time, up to 858 clinical hours

Acupuncture is a branch of Chinese medicine that stimulates certain points on the body in order to regulate the flow of Qi (vital energy). Restoring the flow of energy balances the functions of the body, mind, spirit and restores health.

Chinese medicine combines theory (philosophy and principles) and practices such as acupuncture, Chinese herbs, medicinal diet, Qi Gong, exercise and massage (Tui Na).

Career outcomes

- Clinic practitioner
- Education roles
- Product development roles
- Safety and compliance roles
- Herb farmers or product manufacturer

Visit endeavour.edu.au/careers-service for more information

Graduate Testimonial

“I have always believed the conventional and complementary medicine industries need each other to fill in any blanks.”

Rod Martin graduated with a Bachelor of Health Science (Acupuncture). He went on to practice and become a partner at Go2 Human Performance, which offers a range of conventional and natural health services.

Rod got into acupuncture after having an acupuncture session himself. He quickly become focused on learning more about it so he could share the benefits he had experienced with others.
Bachelor of Health Science (Myotherapy)

3 years full time, up to 351 clinical hours

Myotherapy is a branch of manual medicine that focuses on the treatment and management of musculoskeletal pain and dysfunction. Myotherapy involves an extensive physical evaluation and an integrated therapeutic approach in the treatment of affected muscles, joints and nerves. It uses standard methods of assessment such as postural evaluation and neurological and functional testing to determine the particular cause of musculoskeletal pain and associated dysfunction.

It uses standard methods of assessment such as postural evaluation, and neurological and functional testing to determine the particular case of musculoskeletal pain and associated dysfunction. For more course information visit endeavour.edu.au/courses.

Graduate Testimonial

“Endeavour lecturers each have their individual flair on treatment and assessment, and being exposed to them in hands-on classes and clinics is something I am grateful for.”

Rhianna Bridgett is a Melbourne-based Myotherapist working in her fourth season as head trainer at an elite sports club and seeing patients in a clinical setting. Since graduating, she has continued her studies with Endeavour and is currently undertaking her Honours degree. Rhianna has developed her area of research around the use of cupping therapy and its therapeutic benefits for elite athletes for recovery and performance.
Career outcomes

- Clinic practitioner
- Corporate health consultants
- Health product development
- Safety and compliance roles
- Product development/business owner

Visit endeavour.edu.au/careers-service for more information

Graduate Testimonial

“I was so blown away there was a whole world of effective medicine out there, and I made it my mission to learn all I could.”

Katherine Maslen is the founding director of Brisbane Natural Health, one of Australia’s most successful multi-modality clinics. Her quest to promote the importance of preventative healthcare has seen her become known as a trusted media commentator and realise her dream of becoming a published author.
Bachelor of Health Science (Nutritional and Dietetic Medicine)

3 years full time, up to 468 clinical hours

Nutritional and Dietetic Medicine is the study of food and nutrients in relation to health and disease. It looks at the quality of food that is harvested as well as its preparation, and the balance of macro- and micro-nutrients needed by an individual at various stages of life. Nutrition primarily focuses on modifying a person’s consumption patterns to promote the building of healthier tissues, the release of excess fat, or the release of toxins from the body.

For more course information visit endeavour.edu.au/courses.

Career outcomes
- Clinic practitioner
- Corporate health coach
- Specialist roles in health retreats/day spas
- Media positions/author
- Nutraceutical and product development

Visit endeavour.edu.au/careers-service for more information

Graduate Testimonial

“This is an incredible time to be a working nutritionist. The wellness industry is booming and there are new opportunities surfacing all the time which keeps you growing and evolving. There are more avenues open to us than I ever realised.”

Justyna Kalka graduated with a Bachelor of Health Science (Nutritional and Dietetic Medicine). She promotes optimal health through wholesome, nutrient dense food and movement. As a health coach, educator and holistic nutritionist, Justyna works with her clients to establish life-long healthy habits.
Bachelor of Complementary Medicine

3 years full time, fully online non-clinical degree

Complementary medicine (CM) refers to a broad set of healthcare practices that are generally not yet been integrated into the dominant healthcare system. CM disciplines take a holistic view of illness and wellness, and encompass therapeutic approaches that address body, emotions, mind and spirit.

The Bachelor of Complementary Medicine is for students who are interested in the field as a whole and not in studying to become a practitioner. The course provides you with a broad perspective on the scope of CM in the overall context of today’s healthcare environment, including public health, ethics, research, health promotion and health behaviour.

With exposure to a wide variety of natural medicine disciplines, you will be able to develop a sophisticated appreciation of their interrelationships and potential contribution in multidisciplinary and integrative health settings.

For more course information visit [endeavour.edu.au/courses](http://endeavour.edu.au/courses).

Career outcomes

- Integrative health adviser within a conventional medicine setting
- Policy development
- Research and academia
- Product sales representatives for natural products companies
- Health and lifestyle journalist

Visit [endeavour.edu.au/careers-service](http://endeavour.edu.au/careers-service) for more information

Graduate Testimonial

“The most exciting element about studying Complementary Medicine is the rapid growth that the industry is experiencing; allowing for so many doors of opportunity to be opened.”

Carly Zalakos is studying Bachelor of Complementary Medicine.
Interactive learning

It’s important to find a study style that works for you – on campus or online, full-time or part-time, it’s up to you.

Our campuses are all based in central city locations and with a variety of study environments in which you can learn and relax. Our teachers are industry professionals, passionate about their field and willing to share their knowledge and life experience with you.

In our other Bachelor of Health Science degrees you will need to be on campus to complete parts of your course at scheduled times. Or you can study our Bachelor of Complementary Medicine fully online.

How learning online works

Some of our subjects are available online, which means you can choose where and when you study these subjects. Handy to note if you’re balancing study with work and personal commitments.

Our online learning platform uses the latest technology to create a rich and engaging learning experience. There you will find extensive resources, lecture notes and videos and dedicated online tutors. Plus you’ll have many opportunities to interact with your teachers and classmates.

THE TEACHERS REALLY LISTEN TO YOU AND THEY HAVE TIME TO TALK WITH YOU. GETTING THAT FEEDBACK IS AWESOME. AND IF I MESSAGE THEM QUESTIONS VIA THE LMS, THEY GET BACK TO ME PROMPTLY.

Maria Banica Bachelor of Heath Science (Nutritional Medicine)
2015 School Leaver Scholarship Recipient
Our virtual library at your service

On campus or online across Australia you have access to hundreds of thousands of natural medicine resources via our library.

Even better than this, you have a library team dedicated to helping you research and use the resources to succeed at your studies. Even after hours!

You can access articles, e-books, animations, databases, videos, online tutorials and 3D training tools to help you learn.

From the first week of your course you will discover that library services are embedded into the curriculum, including our online library research skill tutorial. How about that? A library that comes to you!

Wellspring Bookstore

Prefer to buy your books rather than borrow them? Our bookstores are natural health and wellbeing specialists. As well as textbooks you will find best selling books, gorgeous gift ideas, natural cookbooks and must-have wellness products. They are on site in Brisbane, Melbourne and Sydney or shop online.

wellspringbookstore.com.au

In an Australia wide university Library Client Satisfaction Survey, Endeavour was ranked number one. Our library staff received a 94.5% satisfaction score, topping the other 38 universities who participated in the survey.

Source: Biennial Library (Client Satisfaction) Survey, Insync Surveys, 2015

THE LIBRARY IS SO EASY TO USE. I CAN GET ONLINE TEXTS WITHIN TWO MINUTES OF LOGGING ON. IT’S SO MUCH BETTER THAN SEARCHING THROUGH BOOKS.

Hannah Purvis Bachelor of Heath Science (Naturopathy)
MY NUTRITION DEGREE HELPED ME SEE FOOD IN A WHOLE NEW LIGHT AND NOW THROUGH MY RAW FOODS BUSINESS I CAN HELP OTHERS EMBRACE A HOLISTIC APPROACH TO NUTRITION AS WELL.

Hayley Richards
Bachelor of Health Science (Nutritional Medicine), founder of Raw Karma

DIY Wellness – Myotherapy

Did you know simple, regular movement would improve your study performance?

If you’re sitting at a desk studying all day, Endeavour graduate and Move Free owner Matt Kos says get up and do some old fashion exercise during your study breaks. It will benefit both body and mind and lead to the best results.
A bridge to your natural health course

If you’ve skipped science at school you might be worried about how you’ll manage a natural medicine degree.

The good news is we offer free enabling or bridging courses to get your science skills sorted out so you have the best chance of success. You can take these enabling courses before you start your course or in parallel with your studies. The other good news (see, no bad news!) is that we can also offer you assistance with tutoring.

To discover your current skill level you can take our Learner’s Discovery Quiz now by sending an email to study@endeavour.edu.au. A student adviser will review your results and advise you on whether you’ll need to do some extra study.
Where could a natural health journey take you?

People say life is about the journey, not the destination. But where could a natural health journey take you? We believe more than half of the job types available to health and wellness professionals of the future are yet to be invented. But, here are some available right now.
